

# SIDING INSTALLER A DESIGNATED OCCUPATION

Alberta Industry & Training (AIT) will be surveying Industry to see if there is support for Designated Occupation for Siding Installers!

Designated Occupation would

- ✓ **Provide recognition** for the importance of the scope of work you do
- ✓ Make **standardized training** available to those that need it
  - Would allow young people wanting to come into our industry a way to get some knowledge before they get to the job site.
  - Allow us to compete with the other recognized trades & occupations for workers. Working in this industry is a viable career option that young people don't know about
- ✓ Give you a recognized **Certification**
  - Fully qualified and experienced installers could be "grandfathered" to obtain their certification
  - New workers would gain skills & competencies through a combination of classroom training & work experience

**SUPPORT THIS APPLICATION  
FOR DESIGNATED OCCUPATION FOR  
SIDING INSTALLERS!**

**If you receive the survey from AIT, complete it!  
Give the industry your support.  
You are a professional and deserve the recognition!**

**The government  
currently classifies  
Siding Installers as  
"UNSKILLED LABOR"**

**Our scope of work has  
a huge impact on the  
overall health of the  
home!**

**Occupational  
Designation is not  
apprenticeship, it is  
CERTIFICATION**

**How do we get young  
people interested in  
our industry?**

**Need more information?  
Contact**
